

# Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Paul Borel, Office of National Estimates      DATE: 10 June 1954

FROM : Herbert I. Miller, Nuclear Energy Division/SI

SUBJECT: NIE 11-4-54

1. Reference is made to ONE Document No. (TS) 79256, a draft of NIE 11-4-54, prepared for Board consideration.

2. It was our understanding that a decision had been made, based upon a long discussion of the subject, that the paragraphs in this draft relevant to atomic energy were to be in essence a reprint of NIE 11-3A-54, which has been approved by the IAC, and the additional paragraphs which were proposed for NIE 11-5-54 to cover the period 1957 through 1959, which have now also been approved by the IAC.

3. On reading the present draft, I find that it includes a new version, apparently prepared by Mr. Cline of ONE, which heretofore was submitted to JAEIC for consideration, but as yet, has not been agreed upon by JAEIC. This state of affairs, particularly the inclusion of a new version in the draft, in view of previous agreements as to the JAEIC contribution which would be used, is not understandable.

H. I. MILLER
